

Truth, Beauty and Goodness: A Look into Blue Spring State Park

Truth: Problems Facing Blue Spring

Beauty: Landscape, Wildlife and Underwater Photography

Goodness: Recreation

Blue Spring Going Forward

- Protecting Florida's springs is everyone's job. We are all connected by our water in Florida's aquifer system.
- Reduce groundwater pollution (pesticides, old septic systems, fertilizers) and reduce water consumption (indoor and outdoor).
- Protect and restore watersheds around our Florida springs.
- Never trash where you splash!

Conclusion

.Truth, Beauty and Goodness through conservation photography is a balanced approach for addressing the needs and issues facing our Florida Springs.
